OUR BEST CLASS

Dear Graduates,

Our offering of congratulation is tempered with a feeling of loneliness as we bid you Godspeed in leaving Sacred Heart School this graduation day of 1955. It is natural, when ties of friendship are broken and persons you have come to know well, pass out of your life, that it bring moments of regret.

We are not fearful that you will fail in the competition you will meet in your choice of livelihood, but we do wonder whether you will hold sacred the truths of your Faith we have tried to instill into your hearts.

May God be good to you in the years to come. The Church looks to you to be faithful and true as you join its militant army. As a parting thought we would offer a quotation which could be the saving influence to a successful life, "We are saved or damned by what we love."

Take the Telephone Company, for example. Anyone who works for Michigan Bell will tell you it's everything a girl could want in a job.

First, you don't need any experience. You learn your job on the job, and earn a good salary while learning. Raises are regular and frequent. Your income is steady, you can always count on it and you get annual vacations with pay.

Another nice thing about telephone work is that you'll associate with people your own age, just out of school, too. You'll work in clean, bright, pleasant surroundings. Whether you prefer to start as a telephone operator, a teller or a clerk, you'll find opportunities for advancement.

We'd like to tell you more about these and other interesting jobs. Visit us soon, won't you?

... only the
beginning

Ever stop to think what the world was like before electricity became everybody's servant? It's difficult to picture! Electric power serves so faithfully we just take it for granted.

Edison's incandescent lamp, heralding the birth of modern electric service, finally became more than a dream 75 years ago. To help turn this dream into reality, other men provided the finances Edison needed. Their joint achievement is an example of how financial risk-taking and individual ingenuity combine to the benefit of all people.

But our present way of living is only the beginning. Electricity promises for the future still greater marvels and better service.

It requires men and women with many skills to provide this service. If you would like to work with such people why not get in touch with Edison's Employment Office?

SERVING DETROIT

-and Detroit serves the world!

The products of Detroit's industrial plants are shipped to the four corners of the earth. Automobiles, adding machines,

kitchen ranges, bearings and bolts and thousands of other products from

Detroit plants serve the needs of people all over the world. And your Gas Company serves the needs of Detroit's people and plants. Dependable natural gas provides comforts and conveniences for community homes, essential fuel for industry and commerce. Michigan Consolidated Gas Company is proud of its service to Detroit and other Michigan communities.
